ONE-YEAR ANNIVERSARY OF THE EU AWARENESS CENTRE

In February, the EU Awareness Centre proudly celebrated its first anniversary. What began as the shared vision of several passionate and dedicated men and women has grown into a well-established think tank with credible analysis, meaningful engagement, and an expanding community of experts.
Over the past year, EUAC has produced substantial analytical work on key geopolitical and security developments in Europe and its neighbourhood.
In addition to our research and publications, EUAC has actively engaged in events, partnerships, and public dialogues with like-minded platforms that broaden our reach and impact.

Hard Power, Hard Choices: Key Takeaways from Munich 2026

In his article, George Robakidze examines the strategic transformation highlighted at the 2026 Munich Security Conference. It explores the structural impact of the war in Ukraine on Europe's security architecture, the strengthening of the EU's defence-industrial policy, the evolving UK–EU security alignment, and the emergence of a more balanced but demanding transatlantic partnership. The aticle argues that European strategic autonomy is not an alternative to NATO, but rather a prerequisite for its long-term sustainability.

Historic U.S. Engagement in the South Caucasus - strategic partnership with Armenia and Azerbaijan, and missed opportunities for Georgia

A new analytical article by Ambassador Teimuraz Janjalia examines the significant shift in U.S. policy following Vice President J.D. Vance's visit to Armenia and Azerbaijan. It analyses the emerging U.S.-backed peace and connectivity initiatives, including the TRIPP corridor, investment pledges, partnership agreements, and expanded defence and tech cooperation. The article highlights how U.S. engagement has shifted from diplomacy to economic and strategic integration.

A Green Deal Industrial Plan for the Net-Zero Age

An In-Depth Analysis for Non-Experts

This analytical article overviews the EU's "Green Deal Industrial Plan for the Net-Zero Age". The article discusses the policy's focus on regulatory simplification, permitting, state aid, skills development, and supply chain resilience. It demonstrates how the Plan advances the Green Deal's objectives through targeted industrial tools, emphasising a systemic, investment-driven approach to strategic autonomy, innovation, and sustainable growth in the global net-zero economy.
